Bumi Resources Minerals' Subsidiary signed a Conditional Sales Purchase Agreement to Divest 51% Stake in Dairi Prima Mineral's Zinc & Lead Project

Jakarta, 21 June 2017

On the 16th of June 2017, PT Bumi Resources Minerals Tbk's subsidiary, Gain and Win Pte, Ltd ("GW") signed an updated conditional sales purchase agreement (previously signed on 29 April 2017) with China Nonferrous Metal Industry's Foreign Engineering & Construction Co. Ltd. ("NFC") for the sale of GW's 51% share in PT Dairi Prima Mineral ("DPM"), the zinc & lead project.

Such 51% share divestment in DPM is estimated at over \$ 198 million and part of the proceeds will be used to settle the outstanding loan related to the DPM project and to fund the development of the other copper & gold projects in Gorontalo and Palu (both in Sulawesi, Indonesia). Consequently, after the loan repayment, BRMS' liquidity ratio and capital structure will strengthen, while the Company's interest cost will be reduced.

The arrival of NFC (or its affiliates) as a new shareholder of DPM is also expected to speed up the zinc and lead commercial production in the near future.

The transaction completion will follow the approvals required from the DPM's shareholders, the Ministry of Energy & Mineral Resources, the Capital Market Regulation, and others that maybe required.
